

INFOSHEET

FlexHosting—The solution for your Web hosting needs

Are you fishing for a new Web hosting company?

In the vast sea of Web hosting providers there is a company that offers good, sound solutions for your Web hosting needs.

FlexHosting is a service, offered by MapleData, that allows Web developers to host and manage their own Web sites. A user-friendly interface is used that allows you to perform the tasks necessary to create and manage their hosted domains.

Who uses FlexHosting?

FlexHosting is designed for Web developers who would like to devote more energy to development and less on management. With FlexHosting you can easily perform the tasks necessary to setup and manage domains, manage e-mail accounts and processes, and much more.

What equipment needs to be purchased?

There is no additional equipment purchase necessary. MapleData has already purchased everything needed to get you started.

Is there a setup fee?

No, there is no setup fee for FlexHosting.

If you are a Web developer in search of a viable hosting solution, we would like to speak with you.
